Due to the extended timeline involved in the development and construction of renewable energy projects, it takes several years before these parks begin generating revenue from their primary operations. As a result, the Company's management anticipates potential short-term liquidity challenges during the project development phase.

To reduce liquidity risk, the Company is taking a proactive approach to managing cash flow, implementing a comprehensive forecasting process to anticipate and respond to potential mismatches. Additionally, short-term financing options like shareholder equity and bond issuance will be considered as needed to manage cash flows.

The Company intends to carry on with its strategy of building renewable energy power plants in Lithuania.

According to the Law on Companies of the Republic of Lithuania, a Company's equity capital may not be less than ½ of its share capital, as specified in its articles of association. The Company did not meet the minimum capital requirement.

The Company's shareholder undertakes to continue providing financial and non-financial assistance, as economical reasonably feasible, for a minimum of one year following the signing of these Financial Statements. This is to ensure the uninterrupted operation of the Company and compliance with its obligation.

Accordingly, these financial statements have been prepared on a going concern basis, which assumes that the Company will continue its operations.

■ Report on the Financial Statements

■ Emphasis of Matter

We draw attention to explanations to the financial statements, which indicate that the Company's current liabilities exceed its current assets by EUR 18 thousand. In addition, the Company's equity as at 31 December 2022 is negative and does not meet the requirement of the Law on Companies of the Republic of Lithuania. The going concern assessment was based on the assumption that the parent undertaking had approved the provision of financial support to the Company to the extent that it is economically reasonable, for a period of at least twelve months from the date of approval of the financial statements. Our opinion is not modified in respect of this matter.
